STEPHEN QUACKENBUSH II

## Resume Highlights

2023, December | Rimiller Architects | Jefferson City, Missouri

Between my final two semesters of college, I worked on MEP plans and drawing revisions in an office located in Jefferson City. Here I could work on plans for electricians and plumbers as well as converse with them.

2023, June - August | Wildcat Concrete Services | Fort Riley, Kansas

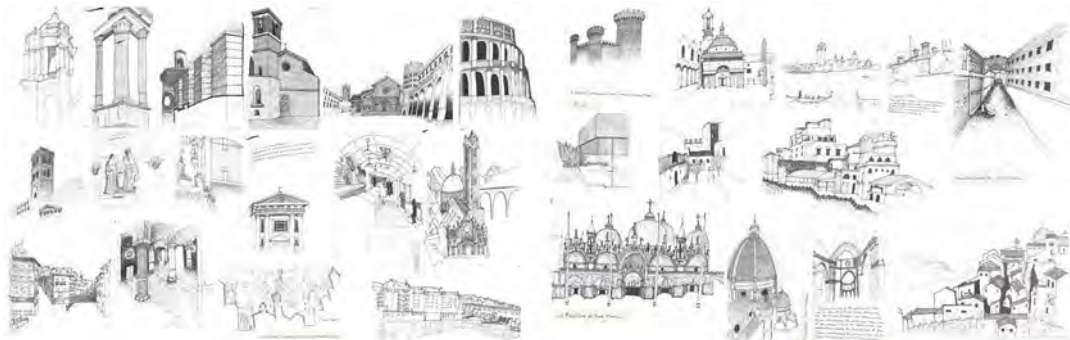

Located on Fort Riley Military Base, I worked on a large concrete structure which serves as an underpass for water to flow in the event of extreme flooding. Working in a small crew consisting of four other guys, we learned to work with one another in circumstances of high stress environments. We would reconstruct board forms and erect the box in sections at a time until the project was completed.

## ROME, ITALY

JANUARY, 27, 2023

Nothing could have prepared me for the echo of history that bleeds through the cracks + openings of this beautiful, evil piece of art, we call the Colosseum. It is a glance into the life + death of ancient Romans. The horrors that took place at the Colosseum, are overshadowed by the triumph + honor of the place that exemplifies the glory of the Roman Empire.

COLOSSEUM, ROME, ITALY

## Resume Highlights

# MHPS IN THE FLOOD PLAIN

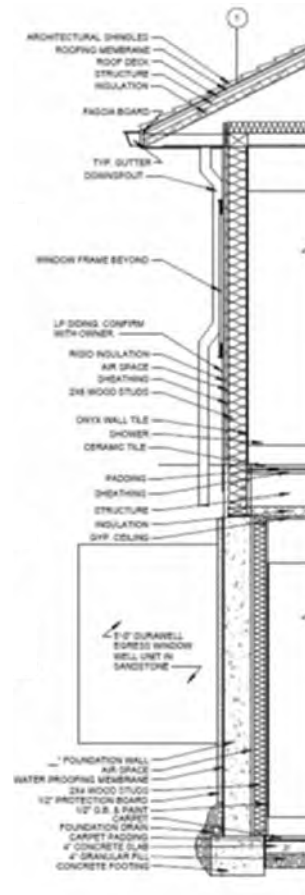

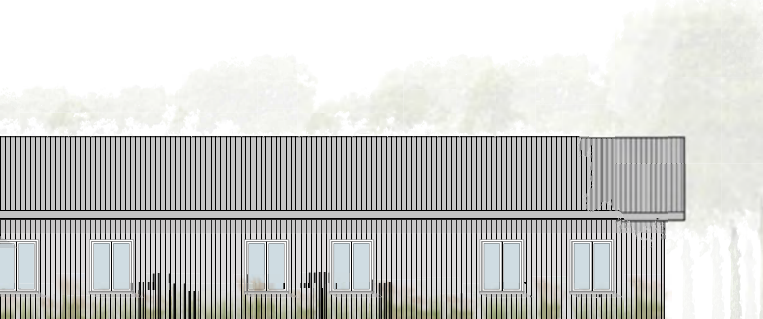

- Mobile Home Parks
- Regulatory Floodway
- 1% Annual Hazard
- 0.2% Annual Hazard
- Future Conditions 1% Annual Hazard
- Levee Flood Prevention
- Kansas State University

Mobile home parks and their relation to the various flood plains in Manhattan. Nearly every mobile home park in the city limits is touching or submerged in the floodplains.

Data source: FEMA RAPT and the Riley County Appraiser's Office.
